Master Thesis: Interview for Management Department

Dear Interviewee,

Firstly, I would like to express my utmost gratitude for taking time to participate in this interview, which is an important step of my master's thesis.

The aim of this interview is to gain a comprehensive understanding of your department needs, challenges and potential areas where AI can be used to bring positive impact. Your unbiased and honest insights are important and will contribute notably to this research success.

To guarantee that the data gathered is as impartial and insightful as possible, I respectfully ask for the following:

Be Specific: Please provide specific examples or scenarios where you believe AI could be beneficial.

Current Pain Points: Please describe any current challenges, inefficiencies, or struggles you are facing or process within your workflow that might be done using AI tool. This will assist us in pinpointing areas where AI solutions could bring improvements.

Concerns and Limitations: We welcome identification of challenges and obstacles as it is essential for effective incorporation of AI in your workflow.

Honesty is Key: Honesty is crucial in this situation. Your honest insights within your workflow will aid us in selecting the most effective AI solution for your specific needs.

I assure you that this data collected through interview will be treated with confidentiality. Your insight will play an important part in pinpointing potential areas where AI can be used to bring positive impact.

Once again, Thank you very much for your participation. Your knowledge and expertise within your field are invaluable for this research topic.

If you have any queries or require further/any clarification, please do not hesitate to reach out.

Warm regards,

Shuvam Singh

1. On a scale of 1 to 5, where 1 indicates not likely at all and 5 indicates extremely   *
   likely, What potential impact do you see for AI in your field of work.

   Mark only one oval.

	1	2	3	4	5	
Not	◯	◯	◯	◯	◯	Extremely Likely

2. Extending in above Likert scale question, Are there any repetitive or particular   *
   tasks or processes that, with the aid of AI, could potentially allow you to dedicate
   more time to strategic planning and leadership responsibilities?

   _____

   _____

   _____

   _____

   _____

3. On a scale of 1 to 5, where 1 indicates not likely at all and 5 indicates extremely   *
   likely, how comfortable are you with integrating AI technologies into the
   management department?

   Mark only one oval.

	1	2	3	4	5	
Not	◯	◯	◯	◯	◯	Extremely Likely

4. Elaborating in above Likert scale question, What challenges and obstacles do   *
   you see in integrating AI tools to enhance your performance in management
   department?

   _____

   _____

   _____

   _____

   _____

5. On a scale of 1 to 5, where 1 indicates not likely at all and 5 indicates extremely   *
   likely, how does AI powered project management solutions can enhance
   efficiency and team coordination?

   Mark only one oval.

	1	2	3	4	5	
Not	◯	◯	◯	◯	◯	Extremely Likely

6. Elaborating in above Likert scale question, How do you think AI can be used in   *
   areas of project management or team coordination? Where do you believe it can
   make the most impact?

   _____

   _____

   _____

   _____

   _____

7. On a scale of 1 to 5, where 1 indicates not likely at all and 5 indicates *
   extremely likely, how valuable are AI driven data analysis tools could improve
   decision making process?

   Mark only one oval.

	1	2	3	4	5	
Not	◯	◯	◯	◯	◯	Extremely Likely

8. Extending in above Likert scale question, In what ways or areas do you think AI *
   can be useful to make strategic/organizational decisions making process and
   make a positive impact?

   _____

   _____

   _____

   _____

   _____

9. On a scale of 1 to 5, where 1 indicates not likely at all and 5 indicates extremely *
   likely, how valuable AI-powered tools such as data visualization, scheduling
   would be for dealing with large and complex data?

   Mark only one oval.

	1	2	3	4	5	
Not	◯	◯	◯	◯	◯	Extremely Likely

10. Expanding on above Likert scale question, How valuable do you think AI-   *
    powered tools are for dealing with large and complex data in day-to-day scale?

    _____

    _____

    _____

    _____

    _____

11. On a scale of 1 to 5, where 1 indicates not likely at all and 5 indicates extremely *
    likely, how effective do you think integrating AI technologies into the
    management department would be?

    Mark only one oval.

	1	2	3	4	5	
Not	◯	◯	◯	◯	◯	Extremely Likely

12. Expanding in above Likert scale question, How effective do you think AI tool   *
    would be for your current workflow, and what support or resources would you
    need to facilitate the adoption and use?

    _____

    _____

    _____

    _____

    _____

13. Any feedback or further suggestion?
